Dear Event Coordinator,

You and I both have a passion for helping students to maximize their potential, attain better grades, better jobs, and ultimately to build a better life for themselves. Many times students don't maximize their potential, because they don't recognize it, and as a result they try to be like everyone else and succumb to peer pressure.

I understand this dilemma, because I was the same type of student. I had potential, but didn't recognize it, and thus I was miserable. In order to feel better about myself, I tried to be like everyone else in order to fit in. As a result, I experienced tremendous hardship when I was kicked out of school 2 months prior to graduation, due to bad choices that I made.

Through this adverse experience I discovered a formula to get through to students, that I call "G.U.G.O.G.S.™", ***Get Up, Get Out & Get Something.*** Students relate to my message because they see themselves in me.

When you book me this is what you can expect: A relevant message taught by an expert that your students will remember and talk about all year long!

Jerome turns bored students into *passionate, engaged, self-motivated, champions* on their campus!

DOES THIS SOUND LIKE THE STUDENTS ON YOUR CAMPUS?

They are wasting time, uninspired, uninvolved, or even dropping out due to apathy.

You're not alone. 73% of students by the age of 21 have no clue about what they want to do with their lives or why they are in school! Most students are operating with a lack of purpose and fail to engage in activities that bring any substance to their lives. Even worse they blame you for their apathy. This is why so many of your students who have high potential can be so frustrating due to their low performance.

The answer is Jerome Love's message **G.U.G.O.G.S.™!**

Rather than taking the easy way out and conforming to your environment, be the catalyst to change it! The message of **G.U.G.O.G.S.™** is simple: No more excuses.

GET UP, GET OUT, & GET SOMETHING!

"WOW! Since our senior commencement ceremony all our students talk about is Jerome this, and Jerome that. Since hearing Jerome speak they are taking more initiative, and finally seem to understand that life is what you make of it, and that you have to

Get Up Get Out & Get Something!"

~ LAVEDA ROLLIN, HARPER ACADEMY, HOUSTON, TX

Jerome always hangs around to sign autographs and talk with audiences.

Get Up, Get Out, & Get Something

SUCCESS PRINCIPLES THAT BUILD EXTRAORDINARY STUDENTS & STUDENT LEADERS

SIGNATURE PROGRAM & KEYNOTE

STEP 1: GET UP

(The Attitude)

- ~ How did Jerome come back from being expelled two months before graduation ... and later graduate with honors?
- ~ How did Jerome come back from being \$100,000 in debt ... to build a million dollar enterprise before age 30?

The answer is simple: Self-Motivation. If you don't know WHY you are striving toward a goal, it's just a matter of time before you quit. Jerome will teach your students time-tested secrets about "Getting Up" and looking within to find the keys to defeating apathy, past programming and standing tall in the face of any adversity.

He transparently shares how he turned his repeated struggles into incredible successes and uses interactive examples to prove how anyone (even the most

apathetic of students) can dig deep within and discover the "motive" that fuels their motivation. They will discover that one thing that they are deeply passionate about and use it as leverage to become excellent at school and in their organizations. They will learn how to become self-starters by using the power of self-motivation.

STEP 2: GET OUT

(The Action)

Your students will learn how to create a "can't fail" plan and how to take targeted ACTION toward their goals. Jerome reveals how to APPLY their motivation in order to achieve new results. He shares insights on how to quickly identify people as Mentors who will push you up or "Tormentors" who will pull you down. Your students will discover how easy it is to compel people to become their mentors and teach

them insights for making success repeatable and sustainable so they achieve higher levels of success and never turn back.

STEP 3: GET SOMETHING

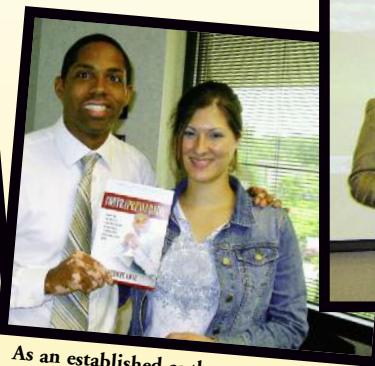

(The Achievement)

Your students already know that life can be hard, and will be filled with challenges. The difference between those who succeed and those who fail is the way they deal with adversity. Jerome will show students how to turn their tragedies into triumph. Students will learn the importance of and how to use challenges to learn critical life lessons that will propel them into their destiny. Using his powerful life story Jerome will teach students how to leverage and use the power of perseverance, perception, and patience to tap into their unlimited potential!

JEROME LOVE aka “The G.U.G.O.G.S.™ GUY!” isn’t your average speaker. He presents his inspiring message, **Get Up, Get Out, & Get Something**, (G.U.G.O.G.S.™) in a down to earth practical manner that students can relate to. For Jerome, **G.U.G.O.G.S.™** isn’t just a cute little phrase, it is the formula for his incredible success.

He has used this potent formula to become a leader in every field of business that he has entered. Within the first 2 years his clothing line **G.U.G.O.G.S.™** was carried both nationally and internationally. He is the owner of one of the leading real estate companies in Houston, (the 4th largest city in the US), and is also founder of the Houston Black Expo which is the largest African American tradeshow in Texas.

It all began for Jerome at the conclusion of his sophomore year in college. After listening to the advice of trusted advisors and other seemingly wise people he found himself working a job that he hated so he could achieve other peoples definition of success. Unwilling to compromise his happiness any further he decided to **Get Up, Get Out, & Get Something** and he started his own enterprise and hasn’t looked back since.

Jerome shows students how to motivate themselves, get unstuck and **Get Up, Get Out, & Get Something** to achieve their personal best in school and in life. Jerome uses stories from his journey that are so amazing that they seem unreal (but they are). He will show your students step by step how to achieve what they never thought they could (but they will).

*Success is not a matter of **CHANCE**,
but a matter of **CHOICE!***
